CAREER OBJECTIVE

Problem-solving MBA candidate aspiring to Business Analyst and Operations roles, with strong skills in data analytics, Python, SQL, and Power BI. Skilled in analyzing data, solving business challenges, and delivering actionable insights to improve efficiency and drive results. Passionate about optimizing processes and supporting data-driven decision-making.

SKILLS

Machine Learning & AI
Supervised & Unsupervised Learning (Regression, Classification, Clustering), Model Evaluation, Scikit-learn, NLP Basics, Large Language Models (Prompt Engineering, Text Analysis, AI-assisted Analytics), Model Optimization, Performance Metrics

Data Analytics & Visualization
Python (Pandas, NumPy, Matplotlib, Seaborn),Power BI (DAX, KPI Dashboards, Business Insights), Advanced Excel (Pivot Tables, Lookups, Data Cleaning),Azure

Programming & Databases
Python for Data Analysis & Machine Learning, SQL/MySQL, ETL (Data Extraction, Transformation, Loading)

Cloud & DevOps
Microsoft Azure (Azure Fundamentals), Azure Boards, Docker, Kubernetes

Tools & Platforms
Jupyter Notebook, Google Colab, Git & GitHub, Power BI Service, AI Tools (ChatGPT,NotebookLM,LLM-based Analysis),JIRA

Analytics & Business Skills
Exploratory Data Analysis (EDA), Statistical Analysis, Problem Solving, Data-Driven Decision Making, Stakeholder Communication

PROJECTS

Developed a Machine Learning-Based Blood Management System for Demand Forecasting | Feb 2024

- Built demand forecasting models using regression & classification (Python, Scikit-learn)
- Improved blood allocation and reduced wastage across hospitals

Developed MedStock AI for Inventory Forecasting | Dec 2025

- Used ARIMA & Random Forest to predict drug demand
- Created a Power BI dashboard for inventory tracking and reduced stockouts

Applied LLMs for AI-Assisted Data Analysis | Apr 2025

- Used LLMs for prompt-based insights and report summarization
- Improved analysis speed and decision-making efficiency

EDUCATION

MBA (Business Analytics & Operations - Supply Chain Management) - Pursuing
Sanjivani Unversity, Kopargaon
CGPA : 7.50

Bachelor of Engineering (Artificial Intelligence & Data Science)
Dr. D. Y. Patil College of Engineering & Innovation,
CGPA: 7.80
2021 – 2025

Higher Secondary Certificate (Class XII)
Sanjivani Junior College, Kopargaon
Percentage: 78.67%
2019 – 2021

Secondary School Certificate (Class X)
Shri Sharda English Medium School, Kopargaon
Percentage: 77.20%
2018 – 2019

ACHIEVEMENTS

Second Prize winner at a National -
Level Technical Project Competition
(Innovatex 2025), awarded for effective communication, confident project presentation, and technical clarity.

Best Paper Presentation winner at a National-Level Conference (NCSDG2030-2026)-
Awarded for research on AI-driven smart manufacturing, focusing on waste reduction, productivity enhancement, and sustainable operations.

POSITION OF RESPONSIBILITY

Aug 2023 - June 2025

Led | Society of Data Science Clubs (S4DS) Managed an inter-college project exhibition competition.

CERTIFICATIONS / TRAINING

- Advanced Python
- Power BI
- Advanced SQL
